Financial Highlights

The Company's portfolio has experienced strong development in 2024, driven by positive development in the share price of several of the listed entities. In total, the listed companies have increased by 27.6% year-to-date. The unlisted portfolio, which is owned through Karbon Equity AS, has also seen positive development, especially driven by Evo and Ecura. However, these surplus values for both listed and unlisted, do not appear in the financial statements as values are mainly recorded at cost.
